

# FIBERGLASS SINGLE AND DOUBLE WALL PENETRATION FITTINGS FOR DOUBLETRAC® PIPE

Fitting includes sump bonding adhesive and tertiary boot for exterior

OmegaFlex pipe bonded directly to the fiberglass fitting

Engineered and Manufactured for OmegaFlex by **Bravo Systems**

**Tested to 24,000 lbs of Force without separation!**

Rated for up to E100 & B100

**NO**

- Rubber
- Metal
- Plastic
- Clamps
- Reducers
- Nuts
- Bolts

**100% AB-2481 Compliant**

**TRUE DOUBLEWALL TECHNOLOGY**

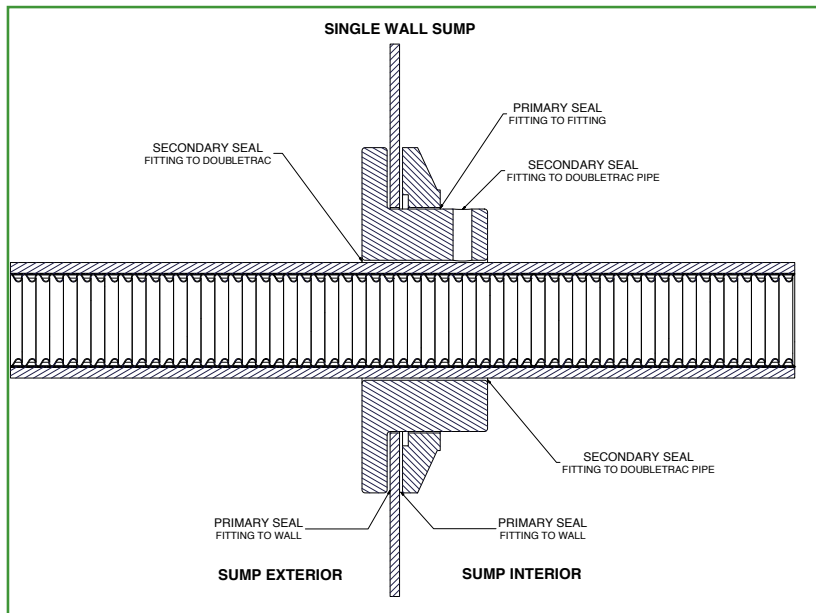

AB-2481 COMPLIANT

**OmegaFlex®**

# F-series Fitting for DoubleTrac Pipe

## Single Wall Penetration Fittings

Model Number	Description Material (Tank-Spec Fiberglass)
UGF-10-OFLX	F-Series for DoubleTrac 1" Pipe
UGF-15-OFLX	F-Series for DoubleTrac 1-1/2" Pipe
UGF-20-OFLX	F-Series for DoubleTrac 2" Pipe

## Double Wall Penetration Fittings

Model Number	Description Material (Tank-Spec Fiberglass)
UGF-10-OFLX-D	F-Series for DoubleTrac 1" Pipe
UGF-15-OFLX-D	F-Series for DoubleTrac 1-1/2" Pipe
UGF-20-OFLX-D	F-Series for DoubleTrac 2" Pipe

The DoubleTrac piping system offers a UL 971 listed zero permeation solution to complex piping needs. DoubleTrac's innovative double wall design includes a primary interior layer of zero-permeation, highly corrosion resistant stainless steel with an outer EFEP barrier layer bonded to a Nylon 12 protective layer. It is rated for direct burial, above ground, or in a chase pipe, it is easier to install and is less labor intensive than rigid piping. DoubleTrac requires no special tools to assemble, can be bent by hand, and the patented field attachable fittings provide a reliable metal to metal seal through proven technology. DoubleTrac has been successfully installed in UST, AST, MARINA and DEF applications; when utilized with BRAVO fittings and containment sumps, it provides the best overall system solution.
